## Description :

Prsentation de l'diteurThis space thriller contains elements of futuristic romance, military science fiction, a galactic empire, cyberpunk, and space opera.In a caste-ruled society, celebrity, beauty, and power mean everything and multiple partners are the norm. Love and jealousy are considered emotional fallacies, nothing more than fleeting moods and sentiments biased by hormones. But sometimes people just fall in loveand that can be deadly.Mari's rare eye color makes her a pariah within Upper Caste society, which is why she prefers plants to people...except David, the former Armadan captain who shuttles scientists around on a refurbished pleasure cruiser. But someone else is interested in Mari and her distinctive look--an obsessed psychopath

who tortures and murders women for pleasure. When the killer chooses Mari as his next victim, the soldier inside David comes alive, but it is Mari who must fight for her own life and prove she isn't as fragile as the flowers she nurtures. OTHER BOOKS IN THIS WORLD: MARKED BY LIGHT (AMBASADORA BOOK 1) STARRIE (FROM THE WORLD OF AMBASADORA) COMING 2017: SCARRED BY LIGHT (AMBASADORA BOOK 2)

"It's a sweet and fulfilling journey as Miller fleshes out the characters' backgrounds and motives, threading the branches of circumstance and desire that blossom into love. David and Mari's strong personalities burn through the pages and it's easy to see their relationship as believable, passionate, and enduring." -K. Ceres Wright, Amazing Stories reviewer "I love sci-fi romance and am always on the lookout for a new author. This was a great introduction to a new world with characters that were memorable and believable." -Cyberclipher, reviewer "I knew from page two of Greenshift that I had a writer-crush on Heidi Ruby Miller. I mean, holy crap, this girl can write! This is how you write Science-Fiction." -Cary Caffrey, best selling author of THE GIRLS FROM ALCYONE "Miller's characters blaze with life and lust and depth, and her world is a dichotomy of the glamorously sensual and the brutally dangerous." -Mary SanGiovanni, Bram Stoker nominated author of THE HOLLOWER trilogy "I loved the world building in this, the attention to detail and the portrayal of the characters. Heidi has a talent for making them so real. The writing is flawless and descriptive, and all the premises and reactions believable and consistent. The bad guys completely gave me the creeps" -Pippa Jay, author of KEIR "The action and romance are seamlessly woven together, transporting us and leaving us petulant for more when the story is over." -from the foreword by Dana Marton, best selling author of THE THIRD SCROLL "GREENSHIFT gives readers a delightfully malicious villain and a thrilling climax that had me on the edge of my seat and left me gasping for breath when all was said and done. Fans of Sci-Fi Romance are sure to enjoy this romance and action-packed novel." -S. A. Sullivan, author of THE HAUNTED HOUSEWIVES OF ALLISTER, ALABAMA "No spoilers here, but if you love planet hopping, space crafts, incredibly thought out societal pecking orders, stuff called scent bots and voyeurs, and characters you simply cannot resist rooting for...read this." -T. K.

Toppin, author of THE LANCASTER RULE series Presentation de l'diteur This space thriller contains elements of futuristic romance, military science fiction, a galactic empire, cyberpunk, and space opera.
