Description :

Prsentation de l'diteur300 tactical puzzles from real endgames!After the opening and the middlegame, Gods have placed the endgame!This book touches upon an important but rarely covered topic of "tactics in the endgame". Books on this subject are either rare or still not out there!You are not alone if you have you lost games from winning positions because you did not spot your opponent's tactical shot. Or maybe you missed a tactic of your own? Inspite of your material advantage, you could not bring home the full point in the end?

Practice is your only friend and coach.This book aims to give you ample practice from tactical endgame positions to really convert that loss into a draw or a draw into a win! Watch out for the Knight forks. Check

how other players sacrifice their valuable pieces to ensure the pawn promotes. Or the simplification tactics to win a won endgame! Unlike other books which offer high number of generic puzzles, this book has carefully chosen and manually selected high quality puzzles from games played in year 2011-2013. Chess Masters stuff as many positions and patterns in their head as possible and this book gives you an opportunity to do that! **HIGHLIGHTS** 300 puzzles from real games of 2011-13! These puzzles are not made up. The themes/patterns can occur in your games too! The puzzles are broken into 4 levels and are suited for players of all strength. Alternative lines are annotated so you are not left wondering why a certain move was not plausible. The solution is placed immediately after the puzzle and also has a accompanying diagram so you can easily visualize the variation on the board without moving back and forth. Each solution is marked with an arrow so you can easily scan the first move without having to read the complete notation. This can also be a good way to get a hint for the first move without revealing the complete solution. No matter your skill level, this book is the right practice companion for you! May Caissa be with you!
